

# Basic Fire Safety Awareness

*RoSPA, IFE & CPD Approved*

Current legislation applies to all workplaces regardless of the number of employees and requires employers to provide adequate training in fire awareness for all members of staff.

Our online fire safety training courses are aimed at all employees to assist them in identifying and reducing the risk that a fire poses in the workplace.

The Basic Fire Safety Awareness course will provide candidates with a learners understanding of essential fire awareness including what should be done in the event of a fire, how to prevent a fire occurring and a basic introduction of the protocol of extinguishing a fire.

Important note: Please note that the Basic Fire Safety Awareness is a knowledge-based course only, if you need further practical training, you can get in touch with us to arrange this.
